RISK PROFILE

Filling this Personal Investment Risk Profile Form leads to the establishment of an investment risk profile valid for all investment accounts opened under the account number above. The risk profile established using this form will be placed on record for a period of three years or till such time that another risk profile is created which replaces this risk profile. The information provided by you will be the basis on which investment promotions will be made. Any inaccurate or incomplete information provided by you may affect the suitability of investment promotions and will affect our ability to offer you investment products.

The series of questions below may help you appraise your risk attitudes, financial means, and investment objectives prior to your selection of appropriate investment/treasury product(s). If you do not wish to provide any particular information, please indicate so against the relevant question. If you feel that none of the suggested responses to a question apply to you, please write down what your response is. Any promotion will be solely based on the information you provide (or choose not to provide) hereunder.

It is thus particularly important that you provide accurate and complete information (using additional sheets if necessary) as it may affect the appropriateness of our recommendation. You are aware, acknowledge and agree that if you provide inaccurate and/or incomplete information, and/or choose not to disclose certain information, such action will adversely affect the results of this profiling, for which we take no responsibility.

For Joint Accounts: the Bank shall recognize only one Risk Profile ("RP") duly completed for any Joint Account based on the information provided in this risk profile. Such RP will apply irrespective of the signing mandate stipulated by the Joint Account holders. As Joint Account holders, you are required to confirm which individual's investment objectives and risk tolerance should be reflected in the RP and thereby assigned to the Joint Account. This individual will be deemed to be the "Key Account Decision Maker". The questions for the RP should be answered from the perspective of the Key Account Decision Maker(s).

The Bank's suitability assessment and promotions for transactions in your Joint Account will be made in accordance with the Key Account Decision Maker's investment objectives and risk tolerance, and any investment advice given to any one joint account holder shall be deemed to have been given to all joint account holders. The Bank reserves the right to refuse to accept investment instructions from a Joint Account holder (other than the Key Account Decision Maker), if such account holder does not provide the relevant information regarding his or her knowledge and experience. The Key Account Decision Maker's investment objectives, risk tolerance and knowledge and experience may differ from other joint account holders and this may impact the types of products and services that the Joint Account will have access to. You may change the individual that is nominated as per the Key Account Decision Maker by contacting your Relationship Manager and in such case the Personal IRP Form will need to be completed again with the new Key Account Decision Maker details. You understand that you may contact your Relationship Manager to discuss this in more detail where you so require.
