## Sybase Customers and Partners in the Spotlight as 2005 ComputerWorld Honors Laureates

### SYNOPSIS:

Sybase announced that 24 of its entries will receive the prestigious Computerworld Honors Medal of Achievement on April 3, 2005. The program recognizes organizations and institutions that are leading the global information technology revolution.

**DUBLIN, Calif. – March 30, 2005** – Sybase, Inc. (NYSE: SY), a leading provider of enterprise infrastructure and wireless software, today announced that 24 technology partners will be named 2005 Computerworld Honors Laureates and receive a Medal of Achievement. Sybase® Laureates from around the world will be recognized as leaders of innovation in nine fields profiled by the program.

“The Computerworld Honors Medal of Achievement is presented annually to men and women around the world who have made outstanding progress for society through the visionary use of information technology,” said Patrick J. McGovern, Chairman of the Computerworld Honors Chairmen’s Committee and founder of International Data Group.

Sybase Laureates submitted case studies detailing extraordinary solutions utilizing Sybase technology in each of the following categories: Business; Education; Environment/Energy; Agriculture; Finance/Insurance/Real Estate; Government/Non-profit; Transportation; Manufacturing; Medicine; and Science.

“The Sybase Laureates continue an outstanding tradition of IT innovation in which service to real people doing important work in the world takes precedence over anything else,” said Executive Director Daniel Morrow.

Case studies provided by the Sybase Laureates will be made available to both scholars and the general public online and through a program affiliated with 179 universities, libraries, and research institutions in 27 countries. The 2005 Collection will be archived and serve as primary source material for scholars and as a resource for information technology professionals interested in building solutions that benefit society. Sybase customers and partners have contributed nearly 250 case studies to the archive since it was established in 1988.

The Laureates from all divisions will be recognized during a special medal ceremony on April 3, 2005 at the City Hall in San Francisco, marking the donation of their case studies and other historic materials to the world’s libraries. The following Sybase customers and partners will be receiving the Medal of Achievement for their application of cutting-edge technology:

- BNSF Railway Company, Texas
- Broward County Environment Protection Department, Florida
- Cessna, Kansas
- Charles County Sheriff’s Office, Maryland
- CRIS/India Railway, India
- European Southern Observatory, Germany
- General Services Administration (GSA), Washington D.C.
- Habib Bank AG Zurich, Dubai

- Hennepin County Criminal Justice Coordinating Committee, Minnesota
- Intel Solution Services, California
- IOSH Business Unit (IBU), Australia
- Manitoba Family Services and Housing, Canada
- Maritime and Port Authority of Singapore, Singapore
- Microsys Computing Inc., Ohio
- Neptune Technology Group Inc., Texas
- Ochsner Clinic Foundation, Texas
- Quadrant Risk Management (International) Limited, United Kingdom
- Rockwool Ltd., Poland
- Samsung Securities, Korea
- Sprint, Texas
- The Courier and Freight Group (Pty) Ltd, South Africa
- The Royal Canadian Mounted Police (RCMP), Canada
- University of Houston/Houston Louis Stokes Alliance for Minority Participation, Texas
- Veritext LLC, New Jersey

In June, Laureates deemed most outstanding by a panel of distinguished judges will be given special recognition as Worldwide Finalists in ceremonies in Washington, D.C. One Worldwide Finalist from each field will be selected for a 21st Century Achievement Award.

Sybase is honored to be a part of providing the innovative technology solutions recognized through the Laureates above. To learn more about partnering with Sybase, please go to <http://www.sybase.com/partner>.
